1. About CloudDesk

CloudDesk is a cloud helpdesk platform for small and mid-sized support teams. It launched in 2018 and today serves more than 12,000 customers in over 60 countries. This guide answers the most common questions about plans, billing, security, integrations, and troubleshooting.

Support is available Monday to Friday, 6:00 AM to 8:00 PM Eastern Time. Enterprise customers also receive 24/7 phone support.

2. Plans and Pricing

CloudDesk is priced per agent per month. Paying annually gives a 20% discount. All plans except Enterprise include a 14-day free trial with no credit card required.

Plan	Monthly billing	Annual billing	Agent limit
Starter	\$15 per agent	\$12 per agent per month	Up to 10 agents
Growth	\$39 per agent	\$31 per agent per month	Up to 50 agents
Business	\$79 per agent	\$63 per agent per month	Up to 250 agents
Enterprise	Custom pricing	Custom pricing	Unlimited agents

Registered nonprofits receive an additional 25% discount on any plan. Two optional add-ons are available: the Voice add-on costs \$20 per agent per month (Growth plan and higher), and the AI Assistant add-on costs \$10 per agent per month (all plans).

3. Feature Comparison

Feature	Starter	Growth	Business
Storage per account	5 GB	50 GB	500 GB
Automation rules	5	50	Unlimited
Live chat widget	No	Yes	Yes
API rate limit	100 requests per minute	1,000 requests per minute	5,000 requests per minute
SSO (SAML 2.0)	No	No	Yes
Audit logs	No	90 days	1 year
Email support response	Within 48 hours	Within 12 hours	Within 4 hours
Uptime guarantee	99.5%	99.9%	99.95%

Enterprise includes everything in Business plus a dedicated customer success manager, custom data retention, and 24/7 phone support.

4. Billing FAQ

How am I billed?

You are billed per active agent. Monthly plans renew on the same date each month, and annual plans are paid upfront for 12 months.

Can I change my plan?

Upgrades take effect immediately and are prorated. Downgrades take effect at the start of your next billing cycle.

What is the refund policy?

Your first paid subscription, monthly or annual, is covered by a 30-day money-back guarantee. After 30 days, annual plans are not refundable. Monthly plans can be cancelled at any time and stay active until the end of the billing cycle.

Which payment methods are accepted?

We accept Visa, Mastercard, American Express, and ACH bank debit (US only). Enterprise customers can pay by invoice with net-30 terms.

What happens if a payment fails?

We retry the payment 3 times, on days 2, 4, and 7. After the final failure the account becomes read-only, and it is suspended after 14 days.

Are taxes included?

Prices exclude taxes. VAT or GST is added where required, and you can add your tax ID under Settings, Billing, Tax details.

Where can I find my invoices?

Invoices are emailed after every charge and can be downloaded under Settings, Billing, Invoices.

5. Account and Security

How long is a password reset link valid?

Password reset links expire after 30 minutes.

What happens after failed login attempts?

After 5 failed login attempts the account is locked for 15 minutes.

Is two-factor authentication available?

Yes. You can use an authenticator app or SMS. Two-factor authentication is mandatory for admins on the Growth and Business plans.

Which plans support single sign-on?

SAML 2.0 single sign-on is available on the Business and Enterprise plans.

Where is my data stored?

The default data center is US-East (Virginia). The EU (Frankfurt) region is available on Business and Enterprise plans.

Which security standards does CloudDesk meet?

CloudDesk is SOC 2 Type II certified and GDPR compliant. Data is encrypted with AES-256 at rest and TLS 1.2 or higher in transit. Backups run daily and are kept for 30 days.

What happens to my data if I cancel?

Your data is kept for 90 days after cancellation and then permanently deleted. You can export everything as CSV or JSON under Settings, Data export.

6. Integrations

CloudDesk offers more than 40 integrations, including Slack, Gmail, Outlook, Shopify, Salesforce, Jira, and Zapier. Slack is available on all plans. Shopify and Salesforce require the Growth plan or higher. Install apps under Settings, Apps, Marketplace.

To connect your support email, forward support@yourcompany.com to your unique CloudDesk address and add the SPF and DKIM records shown in Settings, Email. DNS changes can take up to 48 hours to propagate.

7. API and Webhooks

The REST API (version 2) uses Bearer token authentication. Rate limits depend on your plan, as shown in the feature comparison table. When you exceed the limit the API returns HTTP status 429 with a Retry-After header. List endpoints return at most 100 items per page.

Webhooks are retried up to 5 times with exponential backoff: after 1 minute, 5 minutes, 30 minutes, 2 hours, and 12 hours. API tokens do not expire but can be revoked at any time under Settings, API.

8. Troubleshooting

Customer emails are not showing up as tickets.

Check that forwarding is set up, look in your spam folder, and confirm the SPF record. Syncing can take up to 15 minutes.

I cannot log in.

Use the password reset link. If your company enforces SSO, sign in through your identity provider instead of using a password.

What is the attachment size limit?

Each attachment can be up to 20 MB on all plans.

The app feels slow.

Clear your browser cache and check the status page at status.clouddesk.example for incidents.

Which mobile operating systems are supported?

The mobile apps require iOS 15 or later and Android 9 or later.

9. Support, SLAs and Maintenance

Contact support through in-app chat or at support@clouddesk.example. Enterprise customers can also call +1-555-010-2000. Critical outages (P1) receive a response within 1 hour on the Business and Enterprise plans. Planned maintenance happens on Sundays from 2:00 AM to 4:00 AM Eastern Time.

10. Migration and Onboarding

CloudDesk can import tickets from Zendesk, Freshdesk, and Help Scout using the built-in importer or a CSV file. Importing up to 100,000 tickets typically takes less than 24 hours. Business customers receive a free 45-minute onboarding call, and Enterprise customers get a dedicated customer success manager.

11. Known Limitations

- CloudDesk is cloud-only and does not offer on-premise deployment.
- The live chat widget is not available on the Starter plan.
- The Voice add-on is not available on the Starter plan.
